Thank you for the information.

It appears that withdrawal of service is already occurring as seen in the photographs I've provided. Although it is true that they are not touching my personal unit they are potentially increasing the risk of theft and damage to my personal property and engaging in renovation that they may not have applied for.

I believe it is prudent for the landlord to cease and desist and the RTB should intervene.

Thank you,
Evan rosner

Hello,

In regards to the withdrawal of service, once processed, the Branch will invite the tenants affected by the withdrawal to come to the Branch, during office hours, to inspect the landlord's application and supporting material.

Please see [link](#) for more information about a withdrawal of service.

[Residential Tenancies Branch | Province of Manitoba \(gov.mb.ca\)](#)

If you suffered a financial loss because of the landlord, you have the right to file a claim against the landlord. You may file a claim by filling out the tenant claim form with a \$50.00 filing fee and submit it back to the branch and a hearing will be scheduled where there hearing officer will issue an order with the decision.

Thank you,

CMP/RTB

In addition, there are now two entry ways that provide access to my property. This has decreased the security of my property.

Clarification: Only my unit remains standing. There is dirt and dust everywhere including in the spaces that we use for laundry.

Further to non-compliance here are photographs showing that renovations are currently underway. There is a layer of dust and dirt on my property and some of the art I store may be damaged by these actions. Only 2 units are standing; mine and the one adjacent.

Greetings,

As a follow up to the compliance procedure, I have today received form 8 but there is evidence that service withdrawal has already begun. How are you addressing this?

Thank you,

Evan Rosner

Greetings,

Yes, the door in the image that was propped open should be locked. My storage unit is clearly at risk and the storage room is clearly being dismantled.

Yes, an officer should have contacted them yesterday.

Thorwin Properties

I want to know what the RTB's compliance investigation and procedure looks like.

This appears to be a case of dereliction of duty to the tenant.

Thank you,

Evan Rosner

Hi Evan,

As of today, I do not see an application to withdraw the service in our system, to be in compliance they would need to provide you with a minimum 3 month notice on the correct

form advising you of such information.

With respect to the area not being secured, was this an area that was previously secured with a locked door? If you would like an Officer contact them, please provide the contact information.

Thank you,

VLH/RTB

Subject: re: Compliance / Landlord increasing risk of property theft

Greetings,

I was in the basement where my storage unit is located in the storage room and I observed that the door was ajar and propped open providing access to the insecure space. This represents a significant failure to protect my belongings which I have a reasonable expectation of security. I am not sure how Thorwin Properties can justify putting my belongings at risk and failing to abide by RTB regulations.

I received the following message from the Property Manager on January 10, 2024.

"Thorwin applied to RTB for the reduction of service for your tenancy. It means that communal laundry machines and your storage locker will be removed permanently on May 1, 2024, and there will be no alternative provided. RTB will determine the amount of discount to be added to your monthly rent until the end of current lease only."

I have not received form 8 yet and these photographs strongly indicate that Thorwin Properties is in breach of regulations.

How are you going to be addressing this?

Thank you,

Evan Rosner
