Hi Evan! I have submitted the request for service. I will contact you once I hear back from the plumbing company's service coordinator with the service appointment details. I will certainly let them know about your furry escape artist.

Good morning and happy new year. I'm requesting a plumber to my apartment. The toilet runs intermittently and doesn't flush completely. My shower water is yellow and smells like onion. All the drains including the kitchen sink, washroom sink, and shower drain do not drain quickly and require the blockage cleared. I use a sieve in each to prevent accumulation of debris as discussed last time with the plumber. Also, the shower temperature is chaotic and changes from hot to cold and is out of control. Can you please have the plumber come by to; fix the toilet running, clear the toilet blockage, clear each drain blockage, investigate and if necessary replace the shower head

and the Thermostatic mixing valves.

I have used various basic solution such as drank but I believe the drains require a snake.

Anytime is fine. Please note that I do have a cat that loves to escape.

Thank you. Evan [585 Corydon ave suite 10](#)
